FITTING SOFT GEL EAR TIPS

The package includes a set of small, medium and large size soft gel ear tips. Select the size that fits best and provides the most comfort for long use.

Place the earbud in the ear canal then rotate and adjust it in order to achieve the best fit.

**QUICK TIPS FOR ENSURING PROPER OPERATION**

- Make sure that the earbuds are completely dry before putting them in the charging case.
- The left or right earbud can be used independently for music and phone calls. Simply choose one and take out of the case to connect it.
- Choosing the correct size ear tip will vastly improve in audio quality due to the proper seal for the speaker driver. Test all ear tips to determine which one provides the best results.

TURNING EARBUD POWER OFF

To turn off your earbuds outside the charging case, enter your Bluetooth device settings and disconnect them from Bluetooth. Then the earbuds will power OFF after 3 minutes.

CHARGING THE EARBUDS

When placing the earbuds in the charging case, the earbud LEDs will turn solid red while charging and turn solid blue when they are fully charged. When battery power is less than 3.7V, you will hear a voice prompt “low battery” every minute.

**RECHARGING THE CHARGING CASE**

To recharge the charging case, connect the USB-C cable to a computer USB port or use an USB-to-AC power adapter (not included) that provides a minimum of 5VDC, 500mA minimum power.

When charging the case, its digital display will begin to flash, indicating that the case is recharging. It will continue charging up to a maximum 100% fully-charged level.
