When not in use, the speaker should always be set OFF to prevent the unit from draining the battery. When the unit is not used for prolonged periods of time, the battery will gradually lose its power. It is recommended to fully charge the battery at least every 60 days. When battery is completely empty, the unit cannot perform at 100% of the volume when immediately connected to power source. It is suggested to charge for a while before using with 100% volume. The unit may work and charge with lower-level volume. The volume level would be increased as the unit is charging.

Una vez que el adaptador de corriente esté conectado a una fuente de alimentación, comenzará a cargarse automáticamente (8 horas para cargar completamente la batería). Incluso si la carga de la batería es baja, se encenderá cuando se conecte a una fuente de alimentación. Cuando la batería se está cargando, la luz indicadora de la batería está roja. Cuando la batería está completamente vacía, la unidad no puede funcionar al 100% del volumen cuando se conecta inmediatamente a la fuente de alimentación. Se sugiere cargar durante un tiempo antes de usarlo con el 100% del volumen. La unidad puede funcionar y cargarse con un volumen de nivel más bajo. BATTERIE

Lorsque la batterie est complètement chargée, le voyant s'éteint. Une fois la charge terminée, veuillez débrancher l'appareil. Lorsque il n'est pas utilisé, le haut-parleur doit toujours être éteint pour éviter que l'appareil ne décharge la batterie. Lorsque l'appareil n'est pas utilisé pendant une période prolongée, la batterie perd progressivement sa puissance. Il est recommandé de charger complètement la batterie au moins tous les 60 jours. Lorsque la batterie est complètement vide, l'appareil ne peut pas fonctionner à 100 % du volume lorsqu'il est immédiatement connecté à une source d'alimentation. Il est suggéré de charger pendant un certain temps avant de l'utiliser avec un volume de 100 %. L'appareil peut fonctionner et se charger avec un volume inférieur.
