Once the USB-C cable is connected to a power source, it will automatically begin charging (8 hours to fully charge the battery) Even if the battery power is low, it will power on when connected to a power source. When the battery is charging, the battery indicator light is red. When the battery charge fully, the indicator light will turn off. Upon completion of the charging, please disconnect the unit. When not in use, the speaker should always be set OFF to prevent the unit from draining the battery. When the unit is not used for prolonged periods of time, the battery will gradually lose its power. It is recommended to fully charge the battery at least every 60 days. When battery is completely empty, the unit cannot perform at 100% of the volume when immediately connected to power source. It is suggested to charge for a while before using with 100% volume. The unit may work and charge with lower-level volume. The volume level would be increased as the unit is charging.

BATERÍA

El BT-2015 es un altavoz que funciona con batería recargable. Asegúrese de cargar completamente la batería antes del primer uso para maximizar su vida útil. Una vez conectado el cable USB-C a una fuente de alimentación, comenzará a cargarse automáticamente (8 horas para cargar completamente la batería). Incluso si la batería está baja, se encenderá al conectarlo a una fuente de alimentación. Cuando la batería se está cargando, la luz indicadora de batería es roja. Cuando la batería está completamente cargada, la luz indicadora se apaga. Una vez completada la carga, desconecte la unidad. Cuando no esté en uso, el altavoz debe estar siempre apagado para evitar que la unidad descargue la batería. Cuando la unidad no se utiliza durante períodos prolongados de tiempo, la batería perderá gradualmente su energía. Se recomienda cargar completamente la batería al menos cada 60 días. Cuando la batería está completamente descargada, la unidad no puede funcionar al 100% del volumen cuando se conecta inmediatamente a la fuente de alimentación. Se sugiere cargar durante un tiempo antes de usar con el volumen al 100%. La unidad puede funcionar y cargarse con un volumen de nivel más bajo. El nivel del volumen aumentará a medida que la unidad se carga.

BATTERIE

Le BT-2015 est un haut-parleur rechargeable alimenté par batterie. Assurez-vous de charger complètement la batterie avant la première utilisation afin d'optimiser sa durée de vie. Une fois le câble USB-C branché à une source d'alimentation, le chargement commence automatiquement (8 heures pour une charge complète). Même si la batterie est faible, l'appareil s'allume dès qu'il est branché à une source d'alimentation. Pendant le chargement, le voyant de batterie est rouge. Une fois la batterie complètement chargée, le voyant s'éteint. Une fois la charge terminée, débranchez l'appareil. Lorsque vous ne l'utilisez pas, l'enceinte doit toujours être éteinte pour éviter qu'elle ne se décharge. En cas d'inutilisation prolongée, la batterie se décharge progressivement. Il est recommandé de charger complètement la batterie au moins tous les 60 jours. Lorsque la batterie est complètement vide, l'appareil ne peut pas fonctionner à 100 % du volume lorsqu'il est immédiatement branché à une source d'alimentation. Il est conseillé de le charger un moment avant de l'utiliser à 100 % du volume. L'appareil peut fonctionner et se charger à un volume plus bas.
